### Work2Store Expanding Storage Box

Reduce sample handling time and the need for several racks when working with samples for cold temperature storage. Patentpending opening and closing mechanism allows the racks to expand, creating needed room for sample manipulation. Then simply collaps the rack back to ist compact form and it is ready for the freezer.

- Holds up to 64 x 1,5/2,0 ml microcentrifuge tubes and 1 or most standard cryogenic vials up to 2,0 ml.
- Clear lid locks the racks together for safe handling and transportation.
- Wells have a center depression to stabilise conical tubes and a cryogenic vial lock for one handed cap removal
- Stackable
- Autoclavable
- With alphanumeric well identification
- Will fit into standard 52 mm freezer racking

## SILVER SHIELD® Gloves

Silver flexible laminate of different layers. Permeation resistant by an array of toxic/hazardous chemicals.

An excellent choice for chemical and petrochemical laboratories, spill cleanups, in case of chemical accidents and a host of other applications.

Ambidextrous design - Ideal for single glove use. Also, one glove can be discarded if necessary without wasting a pair. PU = 1 pair

## Sprout® Mini-Centrifuge

For quick spin-downs from tube walls and caps. Use to microfilter cell separations and HPLC samples. Most spins last around 20s, designed for easy repeat opening. Lid fits the palm of the hand. Internal safety switch ensures unit will not operate with lid open.

- Easy to change snap spin rotors; no tools needed
- Circular rotors (glass-filled PC) and adapters combine to hold up to 6 microtubes (2,0, 1,5, 0,5 or 0,2 ml)
- Straight rotor (unfilled PC) holds up to 16 PCR tubes (individual or two strips of 8)
- Simple operation: load tubes, close lid, press on/off button
- For repeated spins, only opening or closing of the lid is necessary
- Incl. Rubber footplate with soft feet to increase stability and deaden vibration
- Needs little benchtop space, cord can be removed for compact storage
- Unit is ETL, cETL and CE marked, complies with European RoHS directive

Items supplied:

- 2 interchangeable rotors covering all applications
- A set of adapters to accommodate all major microtube and PCR tube styles
- Storage case (PU) foam case keeps extra rotors and adapters contained and dust-free
- Tube rack for handling samples before and after quick spins

## Serological Pipettes

For the quality, accuracy and performance required during every stage of cell culture research. Accurate, disposable plastic pipettes plugged and sterilised.

- Sterility accuracy level SAL 10<sup>-6</sup>
- 100% virgin PS for max. clarity
- Certified non-pyrogenic
- Bold clear graduations with easy-to-read scale markings
- Non-dripping tip for pipette precision
- Colour-coded packaging for ease in sorting and selecting the correct size
- Different packaging option available

## Labware Value Pack Nalgene

All items in the labware value pack are chemically compatible with a wide range of common laboratory reagents; especially acids, bases and alcohols.

- Convenient: receive 20 items with one catalog number
- Cost effective: variety of everyday lab items at one low price
- Safe alternative to glass: won't shatter or break

Included:

- 6 x # 2118-0016 => Straight-Sided Jars, 500 ml, PP
- 4 x # 2402-0500 => Unitary wash bottle, 500 ml, LDPE
- 2 x # 3662-0100 => graduated cylinders, 100 ml, PP
- 2 x # 3662-0500 => Graduated cylinders, 500 ml, PP
- 2 x # 3662-1000 => Graduated cylinders, 1000 ml, PP
- 1 x # 1201-0050 => Griffin Low Form Beaker, 50 ml, PP
